

Affirm Savings: The Simple and Smart Way to Save

September 1, 2022

When consumers think of Affirm, they largely think of us only as a pay-over-time solution that provides the flexibility to choose bi-weekly or monthly payment options. What consumers might *not* know is that Affirm also offers consumers a way to keep their savings safe and secure while their money earns more money.

Enter: [Affirm Savings](#).

With a recent [survey](#) from Affirm revealing that only half of Americans feel in control of their finances right now, Affirm Savings provides a simple and free way for consumers to be in the driver's seat as they pursue their savings goals. See details below.
